2018-2019 Maryland Youth Risk Behavior Survey (YRBS) Sexual Behavior and Sexual Identity Responses

MDH Center for STI Prevention

April 2020

Maryland Youth Risk Behavior Survey/Youth Tobacco Survey

The Maryland YRBS/YTS is an on-site survey, conducted every other year, of Maryland public middle and high schools. It tracks behaviors that contribute to the leading causes of death and disability, including but not limited to, alcohol and other drug use, tobacco use, unintentional injuries and violence, and poor physical activity and dietary behaviors. The Maryland YRBS also asks about contraceptive use, sexual behaviors and sexual identity. The 2018-2019 survey was administered to over 41,000 students.

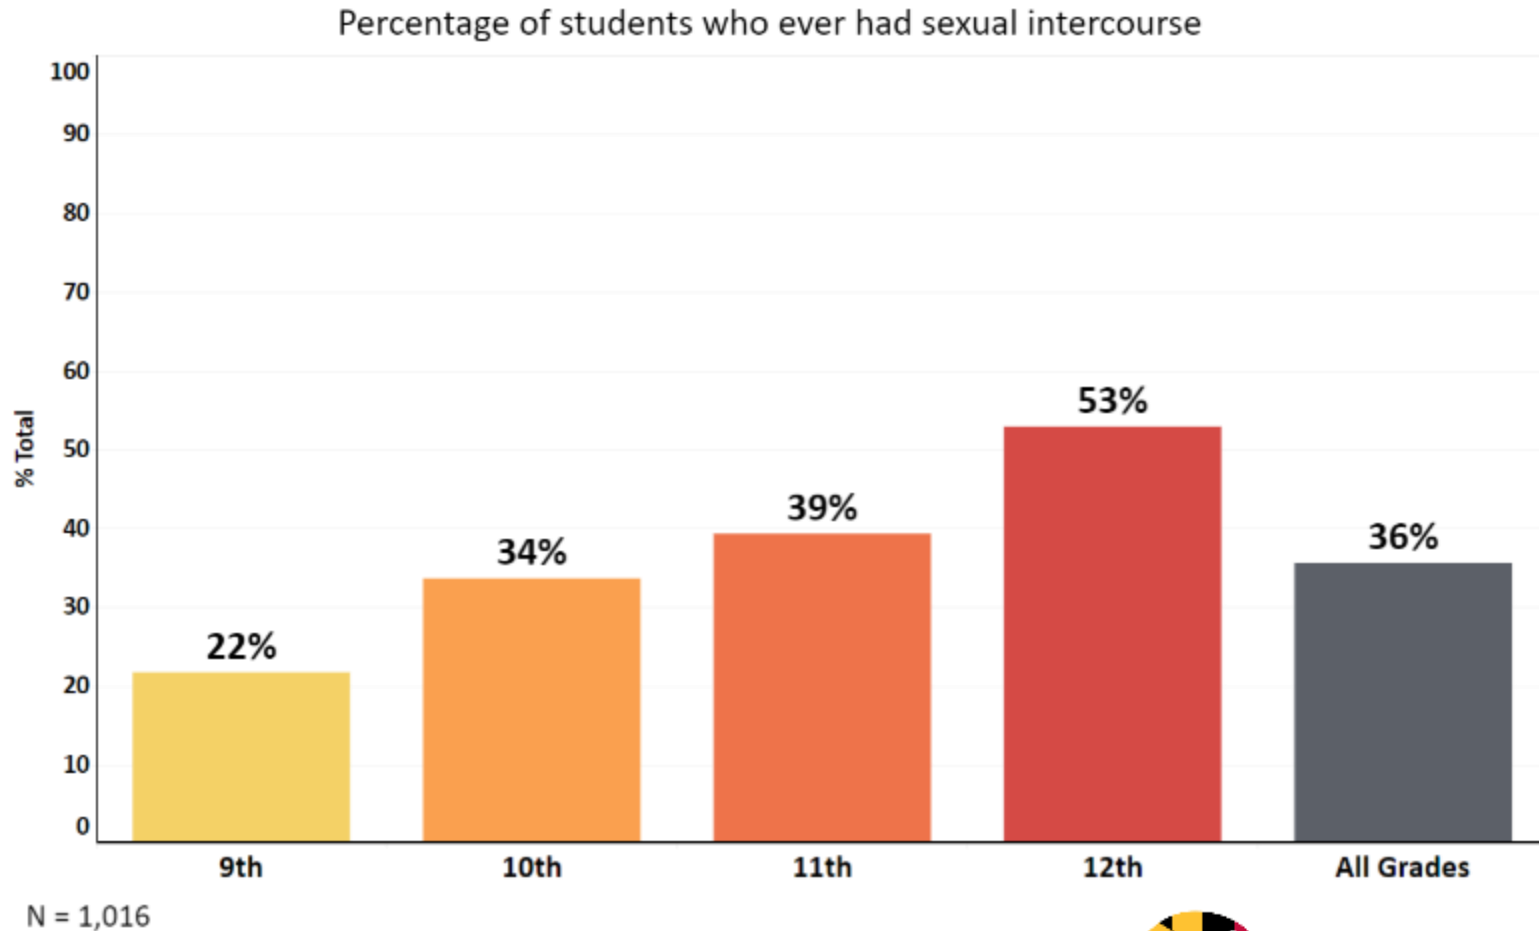

For more information about the survey, visit:
